Introduction

Community Housing Cymru appointed Turning Point HR Solutions, an independent Reward Consultancy, to collate and analyse data directly provided by housing associations on senior management remuneration.

The intention of this report is to present senior management pay information in one place. The report does not seek to analyse, make conclusions or recommendations.

In October 2020 37 Welsh Housing Associations (HAs) participated in the salary benchmarking survey. The data relates to salaries between the period April 1st 2018 to March 31st 2019 and April 1st 2019 and March 31st 2020.

The gender pay data relates to 5th April 2019.

Background

A number of HAs operate at a significant scale, delivering a wide range of services for tenants and communities, including care and support, in addition to building houses across all tenures to meet demand. All Housing Associations operate in a complex business environment that requires first class leadership which inevitably has an impact on executive pay.

HAs compete for talent within a UK employment market for the skills, experience and knowledge that are required to lead these organisations and manage and attract finance to deliver new homes and services. It is important to be able to attract talent to the sector to retain the confidence of lenders and continue to deliver for the communities they serve.

Welsh housing associations provide huge value for money for the Welsh public; for every £1 of capital investment from the public purse, HA's directly generate £5.73 of output in Wales. Housing associations invest more than £1.3bn ¹in communities throughout Wales annually, with an estimated 85% retained in the Welsh economy.

Of the 37 HAs who responded, 2 have indicated that they have a CEO from a BME background which is just over 5% of the sector.

CEO to Median Salary Ratio & Number of Staff Earning More Than £100,000 a Year

The following section looks at how CEO salaries align to organisational size. Due to the variation in size, structure and nature of organisations information has been presented on three metrics:

- Annual turnover
- Number of housing units managed
- Number of full-time equivalent staff.
- CEO Pay per £M Turnover
- CEO Pay per Units in Management

Also included in the table is the median salary paid to staff within the organisation and the number of staff in the organisation whose base salary exceeded £100,000 a year. The ratio of CEO salary to the median salary has then been calculated to demonstrate the differential in salary between the highest and average pay in the organisation.

Senior management pay generally increases with the size and complexity of the business being managed.

The ratio of median staff salary to CEO salary for the organisations detailed in the report is 4.26:1, the minimum ratio is 2.57:1 with a maximum of 9.43:1.

The median of the median staff salaries for the organisations is £26,131. The 2020 UK median is £25,780 8 . The 2020 median for Wales was £23,323 9 . The 2020 average for residential care providers across the UK was £20,110 10 .

Gender Pay Analysis

The next section of the report analyses how the two genders are paid in relation to each other, it also looks at the number of senior roles held by each gender, and the distribution of the genders across the responding organisations.

CEO Gender Analysis

The following table details the minimum, median, maximum and mean salaries being paid to Chief Executives of both genders. It also highlights the number of each gender currently holding the role of Chief Executive in the participating organisations.

Salary Measure	Male	Female	All
Minimum	£54,725	£53,000	£53,000
Median	£111,377	£107,561	£110,000
Maximum	£144,872	£184,335	£184,335
Mean	£107,301	£111,523	£109,697
Number	16	21	37
% of total	43%	57%	100%

There are 5 more female CEOs than male in the cohort equating to a ratio of 57% to 43%.

When compared to the ONS analysis published in October 2020 this ratio is brought into focus. The proportion of male to female staff in the ONS group entitled 'Chief Executives and Senior Officials' was 65% male to 35% female. Within the ONS group women were on average paid 11.5% less than men.

Mean Gender Pay

The following section looks at all staff across the organisations and compares what proportion of the mean female salary is received by their male colleagues. A positive figure indicates that men are paid more than women. A negative figure indicates that women are paid more than men. Not all organisations in the cohort are of a sufficient size to have been required to fulfil the gender reporting obligations for organisations and so not all organisations in the group are represented in this section. Organisations marked with a * have reported their gender pay gap but are not legally required to as they have less than 250 members of staff. This data relates to 5th April 2019

Median Gender Pay

As with the mean pay analysis, not all the organisations in the group have carried out this analysis and as a consequence do not appear in the table below. The latest median UK national figure for full time staff, as calculated by the Office of National Statistics and released in October 2020, is 7.4% in favour of males down from 9% in April 2019¹¹.

 $^{^{\}rm 11}$ Gender pay gap in the UK: October 2020 - Office for National Statistics

The gender pay gap reported for Welsh housing needs to be understood in context; a significant proportion of the HAs in the cohort continue to have sizable operations in the care sector. This sector has significantly more female employees working in it and pays low salaries when compared with many other sectors in the economy. The October ONS figures show that nationally females make up more than 78% of staff in the group defined as 'Care workers and home carers'. In this context the Welsh housing gender pay gap is encouraging.

Gender Population by Organisational Quartile

An analysis was carried out, details of which can be seen in Appendix 4, looking at the proportion of male and female staff populating each salary quartile of the business. To do this, all of the salaries in the organisations are arranged from highest to lowest; this list is then split into four equally sized groups; with those individuals with the highest salaries in group one, the next highest in group two etc; finally, the number of individuals of each gender in each group is counted, and the percentage of the group made up by each gender calculated.

Board Makeup & Payment

In the final section organisations were asked the gender of the chair of their board.

Board Chair Gender

The gender of each organisations board is detailed in the table below.

Gender	Number	%
Male	21	56.76%
Female	16	43.24%
Total	37	100.00%

Board Payment

Of the 37 respondents, 24% pay their Board members and the following is a summary of that payment.
